**ACT CONDEMNS THE RECENT KILLINGS AND VIOLENT
ATTACKS IN AMBAZONIA.**

ACT - Team Ambazonia condemns the recent killings in Ambazonia (Kumbo and Bali) and the humiliating and violent attacks on school children and their teachers in a school in Victoria by masked men as seen in videos that have been widely distributed via social media and viewed by millions of people worldwide. The barbaric actions of the unprofessional LRC sponsored armed criminals and soldiers on our own soil are symptoms that can only be compared to the last kicks of a dying horse. The filming and distribution of these atrocities underlies the purpose of the genocidal regime in Yaoundé, which not only wants to kill our strong and valiant youth, but frame our self-defense forces as ruthless killers so that the peaceful people of Ambazonia will give up their fight for the recognition of their independence and turn against our restoration forces. Our self-defense forces are trained to defend human life and respect the rules of engagement in this war that was declared on us by President Paul Biya of LRC.

We call on our defense forces to remain steadfast in their mission and hold their ground while respecting all international conventions. The government of LRC should know that they cannot use the taking of human life and committing atrocities of this horrific nature as a diversion from the necessary freedom of the people of Southern Cameroons/Ambazonia.

A permanent solution to this conflict can be found through an international mediation in the Swiss led process.

Yours Truly,

ACT Council
